SDM RAJAJI

AI Training & Evaluation Specialist | Software Developer

Graduate with strong technical skills and a passion for AI, software development and problem-solving. Experienced in building personal software projects using Python, Flutter, Dart, Node.js and modern web technologies. Interested in AI training and evaluation, including assessing AI-generated responses, identifying errors, and improving response quality. Detail-oriented, analytical, and committed to delivering accurate and high-quality work.

PROJECT EXPERIENCE

My Diary – Personal Mobile Application
2024 – Present

Flutter | Dart | Local Storage | App Security

- Planned and developed a privacy-focused diary application with app lock, password authentication and biometric authentication.
- Designed features for notes, reminders, categories and export functionality.
- Focused on clean UI/UX, secure local data storage and improved user experience.
- Worked on settings, security options and responsive design for different devices.

Gym & Fitness Platform
2024 – Present

Flutter | Node.js | PostgreSQL

- Planned a cross-platform mobile application for Android and iOS.
- Designed features for member management, weight tracking, workout schedules and coach monitoring.
- Explored backend architecture using Node.js with PostgreSQL database.
- Focused on responsive UI design, user flow and data management.

CareerSeek – Job Platform Concept
2024 – Present

Flutter | Node.js | PostgreSQL

- Planned a job search and recruitment platform for IT and Non-IT sectors.
- Defined features for job listings, location-based search, filters and employer dashboards.
- Organized candidate profiles, resume management and job discovery workflows.
- Designed the overall application structure and user experience.

API Key Saver – Utility Tool
2024 – Present

Flutter | Local Storage

- Planned a secure offline-first application to store and manage API keys.
- Designed features for category organization, encryption and easy access.
- Focused on simple and clean UI with strong data security.

EDUCATION

B.Tech – Artificial Intelligence & Data Science
Rathnam Technical Campus
2021 – 2025
Coimbatore, Tamil Nadu

Higher Secondary (12th)
S.G.S.M.S.M.M. Hr. Sec. School
2019 – 2021
Tamil Nadu

CERTIFICATIONS

- Python for Everybody – Coursera — 2024
- Flutter Development – Udemy — 2024
- Machine Learning Fundamentals – Coursera — 2024
- Web Development (HTML, CSS, JavaScript) – Udemy — 2023

TECHNICAL SKILLS

Programming Languages
Python | Dart | HTML5 | CSS3

Mobile Development
Flutter | Android / iOS)

Backend Development
Node.js | REST APIs

Databases
MongoDB | PostgreSQL

Development Tools
Git | GitHub | Android Studio

AI & Machine Learning
Prompt Engineering | AI Model Evaluation | Data Analysis | Machine Learning (Basics)

SOFT SKILLS

Analytical Thinking | Problem Solving | Attention to Detail | Logical Reasoning | Clear Communication | Time Management | Adaptability | Self Learning

LANGUAGES

Tamil — Native
English — Intermediate

INTERESTS

AI & Technology | App Development | Chess | Problem Solving | Reading | Fitness
